THIRD SEMESTER 133c. DEGREE EXAMINATION NOVEMBER 2012

(CCSS)

Computer Science - Complementary Course

	•
СМС	CA 03 – FUNDAMENTALS OF SYSTEM SOFTWARE, NETWORKS AND DBMS
Time : Three l	Hours Maximum: 30 Weightage
I. Answe	er all <i>twelve</i> questions:
1.	software is a set of one. or more program designed to control the operation and xtend the processing capabilities of a computer
2.	is an example of time sharing operating system.
3.	is a translator program that translates a high level language program into its equivalent machine language program.
4.	refers to data transfer rate of a communication system.
5.	are groups of specially wrapped and insulated wire lines capable of transmitting
d	lata at high rates.
6. N	MAN stands for
7.	is an example of a data model.
8. A	A tuple is also known as
9. (CREATE statement is used for
10. Т	To modify the structure of a table — command is used.
11.	provide additional information about an HTML element.
12.	tag.
	$(12 \times \frac{1}{4} = 3 \text{ weightage})$
II Anomy	or all nine questions.

II. Answer all *nine* questions:

- 13. Define operating system.
- 14. List any two features of High Level Languages.
- 15. What is a WAN?
- 16. List any four roles of a communication protocol.

Turn over

- 17. What do you mean by "Broad band"?
- 18. Define DBMS.
- 19. Define hierarchical model.
- 20. Write and explain the syntax of INSERT command.
- 21. Define Hypertext.

 $(9 \times 1 = 9 \text{ weightage})$

III. Answer any five questions

- 22. Explain the function of an operating system.
- 23. Compare Machine Language, Assembly Language and High Level Language.
- 24. Briefly explain the functions of various layers of Internet protocol.
- 25. Compare star and ring topologies.
- 26. Briefly explain the feature of network data model.
- 27. Write SQL statements for the following:
 - (a) Create a table with accno, name and balance (with accno as primary key).
 - (b) Add a sample record: "101", "XYZ 1000.:
 - (c) Update the balance to 2000.
- 28. Explain any five HTML tags.

 $(5 \times 2 = 10 \text{ weightage})$

IV. Answer any two questions

- 29. Discuss various communication media.
- 30. With suitable example, explain relational data model. List the advantages of relational model over other models.
- 31. Create a web page of your choice using HTML Include as many features as possible.

 $(2 \times 4 = 8 \text{ weightage})$
